

Leigh Trust Artist in residency plan:

Each class will have 3 project workshops (one per term) delivered within the academic year and will be accessible to ALL children within the cohort.

Project #1 (Our environment) : Collaborative artwork to be displayed within the school premises.

Project #2 (Community outreach): Collaborative artwork to be donated to the community (retirement home, RSPCA etc.)

Project #3 (Entrepreneurship): Individual artworks to be sold at an exhibition and funds used for a class trip or event of their choosing.

All projects will be linked to wellbeing, reflection time and an awareness of mental health within a group discussion at the beginning, middle and end of each day.

The materials used will be from sustainable sources, or from recycled materials where possible, and made explicit within each project.

Each project will be designed for maximum accessibility of physical and learning needs.

They will be linked to individual school Topic themes where possible.

They will all be purposeful and have an intended audience, which will be discussed and formulated with the individual classes.

At the end of each term, individual projects will culminate in an after-school viewing (a micro exhibition), where parents and carers are invited in and children can share their work with them.

Stars/ Hive will work back in their Year group classes.

Leigh Trust Artist in residency timetable 2023
